Sump Pump Maintenance Tips

APRIL SHOWERS ... TIME TO CHECK YOUR SUMP PUMP.

Security systems mean more than "just deterring burglars". One of their most important features is that they can monitor changes in the environment such as: [changes in temperature, humidity, furnace failure, sewer backups, water leakage or even alert you to rising water levels from a sump pump malfunction](#) ... all of which can result in costly damages to your home. And while a security system can help mitigate the damage by providing a warning to home owners ... an ounce of prevention is worth a pound of cure!

So with the incredible winter we've endured this year, we'd like to remind Clients that it's time to check and clean your sump pump to ensure it can handle increased snow-melt this year.

Check out our [useful tips](#) for how to [check your sump pump](#) to ensure it's in good working order.

Your sump pump should be checked regularly, and this is especially true in the months leading up to Spring thaws and Fall rains. If you have any questions about this, or other environmental security measures, we would be happy to help, so please [get in touch](#).

ALTERNATIVES TO TRADITIONAL KEYPAD LOCKS

Since our [acquisition of Blue Mountain Lock, Key & Safe](#), we've heard a number of Clients asking for alternatives to the keypad locks they are seeing in the big box stores.

So we asked Roger and Kim what alternatives exist.

Their answer?

"The one that we installed on our house - eighteen years ago!"

WHAT'S HAPPENING IN JULY?

Huronia is excited to announce that we will be registering two teams for the 2nd annual [6 Hours of Gibraltar](#) mountain bike relay race.

This charity event benefits [My Friends House](#), a safe haven for abused women and their children, located in Collingwood.

If you're interested in registering a team of your own, or to make a donation, please visit the [6 Hours of Gibraltar website](#) for all the details.

Huronia Alarm & Fire Security Inc. is participating in the 6 Hours of Gibraltar relay race.
