

# Huronia

## WELCOME DAN! OUR NEW OPERATION'S COORDINATOR.

Please join us in welcoming Dan Seeley to the [Collingwood](#) team.

Dan brings with him years of experience in property and construction management including the installation of audio and video infrastructure.

Dan's expertise will improve our scheduling of customer jobs and his knowledge of audio, video, home theatre products and services will augment our [Audio Video division](#).

Dan Seeley, Operation's Coordinator

## LOCK & KEY SERVICES NOW AVAILABLE IN MIDLAND

Huronia Lock, Key & Safe products and services now available in Midland and surrounding areas.

As our [lock and key division](#) continues to grow, so too does our service and installation area!

With two full-time locksmiths on our team, we are now booking service calls 2 days a week in the Midland and surrounding areas.

On-site servicing and installation of locksmith products and service for [residential](#), [commercial](#) and [automotive](#) applications can be booked by calling 705-526-9311 and selecting option #3 when prompted.

For a full list of our lock, key and safe products and services, [please click here](#).

## STORM WATER AND FLOODING TECHNOLOGY PILOT

Huronia has teamed up with one of its longtime Customers, [Greenland Consulting](#), to study [storm water and flooding as part of a technology pilot](#) project in Collingwood. The pilot project will also draw on the expertise of the [Environment Network](#) and Safe Pump Inc.

Once funding has been approved, the project would install sump pump monitors in select homes in Collingwood. These monitors would then be connected to the internet and provide real-time monitoring of sump pump battery life and will also send out an alert to the homeowner when the power goes out in their home. This project will monitor the ongoing benefits of these types of technologies in the community and their effectiveness in bettering flood resiliency.

Huronia's involvement in this preliminary stage of the project will be to monitor the data and the sump pumps.

To read more about this technology pilot, [click here](#).

And for more information about keeping your basement dry with sump pump monitoring, [click here](#).

## WHO TO CALL FOR NON-EMERGENCY SITUATIONS?

Have you witnessed an incident that involves damage to property but the perpetrator has gone? What about some other non-emergency or non-life-threatening situation?

The Ontario Provincial Police would like to remind you that [there is a number to call that will not trigger an emergency response](#). The 24/7 number to call in Ontario is **1-888-310-1122**. This number is for the public to use to report **non-emergencies**. (If someone is injured or their life is in danger ALWAYS call 911!)

You are also able to report a crime online - [click here for more information and to start your report](#). Remember, any information that you report could help to solve a crime like a break-in, vandalism or theft.
