

We had some good feedback from our enewsletter last month about vehicle theft and security, so wanted to pass along some additional information people may find helpful. I've been playing with a car connector module for a couple years now, that I have installed in most of our family vehicles, including my daughter's.

Let me explain.

One night when I got home and commented that my wife's car was low on gas, my daughter asked me how I would possibly know that. Well, because I'm a geek AND car enthusiast, I started telling her all about this new device I'd been using in my car and her mom's car, and all the awesome features it had to track fuel level, battery, trouble codes etc. I was probably giving her more information than she hoped for, but she stopped me mid-sentence and said, *"Can you put one in my car so if I'm driving home from work, you'll know if the check engine light comes on? That's make me feel a lot safer."*

Did my kid just willing ask me to monitor their vehicle? I leapt from the couch and made my way to the driveway to pull the module out of my car and put it in hers.

Wishing you all safe travels this summer.

~ David P. Clark, President

CONNECTED CAR FROM ALARM.COM: SMART SECURITY FOR THE ROAD

Our manufacturer partners at Alarm.com have developed [Connected Car](#), an easy-to-install vehicle adaptor device that extends your existing home security system. This device allows Alarm.com users to track and monitor a vehicle's location and trips, diagnostics (check engine, low battery, low fuel) and changes in behaviour (like if the vehicle is moving too fast or if it's moving when it's supposed to be parked) and more, all through the Alarm.com app. Customized notifications and alerts work when the car is running and when it's turned off.

And that's not all.

You can also use this new device to automate smart home settings based on the location of your vehicle. Once the Connected Car is calibrated and a geofence has been created, you can automatically adjust the lights and thermostat while you're away and again when you are returning home. You can pause recording rules while the vehicle pulls into your driveway. And you will worry no more about whether you've forgotten to close the garage door or lock the front door. There's an alert for those occasions, too.

[Click here](#) to learn more about how you can protect your vehicle and your loved ones inside them with [Connected Car from Alarm.com](#).

HURONIA CANADA DAY HOURS OF OPERATION

Please take note that Huronia will be CLOSED on Monday, July 1st, for Canada Day. We will re-open on Tuesday, July 2nd. Our [24/7 ULC listed monitoring station](#) WILL remain open without interruption in monitoring service. 24/7 emergency service is also available if required.

WE SPONSORED AND HIKE FOR HOSPICE HURONIA!!

The sun shone as 275 walkers (our Huronia hike team included!) took to the trails for a memorial walk at Little Lake Park in Midland, supporting Hospice Huronia. Little did we know that we'd bump into the founder of Huronia Alarms, Don Bryant, along the way! We want to give a massive round of applause to the team at [Hospice Huronia](#) for their incredible fundraising efforts. Over \$120,000 was raised.

RENEWAL OF PRESTIGIOUS TMA FIVE DIAMOND MONITORING CENTER DESIGNATION.

We are pleased to announce that [The Monitoring Association \(TMA\)](#) has renewed [our station's](#) prestigious "TMA Five Diamond Monitoring Center Designation".

This designation is granted annually to monitoring centres that satisfy the TMA "five points of excellence" requirements. This designation also means that our monitoring station has *"demonstrated an exceptionally high degree of responsibility to their local community and their customers through the investment of time, money and commitment to quality operator training. Operators serve as the life-saving link between residential or business properties and the police, fire and emergency services in local areas."* [Click here to read the press release.](#)

If you are considering an alarm system or other monitoring system for your home or business, please be aware that of the central monitoring stations across Canada, which communicate and interact with law enforcement, fire and emergency services agencies, fewer than 20 monitoring centers have achieved the Five Diamond Monitoring Center Designation, setting these companies apart. We are pleased to be among those [high performing monitoring centres.](#)

This designation means that our company has made it our best practice to meet the highest levels of professionalism, training, and expertise in the industry. We are staffed by trained, knowledgeable professionals, and we utilize technology and standardized procedures that meet the highest industry standards.

For more information about our monitoring station, or monitored security, fire and life safety products and services, [please contact us.](#)

WE WERE PROUD TO SPONSOR THE ULTIMATE EAST COAST KITCHEN PARTY IN SUPPORT OF MY FRIEND'S

HOUSE!

Last month [My Friend's House](#) hosted their inaugural [Ultimate East Coast Kitchen Party](#) at Harbour Street Fish Bar in Collingwood, and we were proud to sponsor this *Down East* event!

Like all good East Coast kitchen parties, the venue was filled to the rafters with 150 friends and neighbours all gathered "for a great feed", to share stories (no doubt tall tales from the sea about reeling in the biggest fish that, quite sadly, got away), and to clink glasses ("sociable!") before hitting the dance floor.

Fundraising efforts were in support of food security at the Collingwood shelter.

Congratulations to the events team that helped to raise over \$38,000! *Holy mackerel*, what an accomplishment!

CAREER OPPORTUNITY: AUDIO VIDEO TECHNICIAN

Some of our best leads have come from our customers, so we are reaching out again to ask for your help finding an Audio Video Technician to join the Huronia Alarm & Fire Security Inc. team!

As an Audio Video Technician at Huronia Alarm & Fire Security Inc., you'll be based in our Collingwood office and travel to customer locations in Grey County, Simcoe County, and Muskoka & Parry Sound. You'll work closely with our Audio Video and Alarm Security teams, taking on responsibilities such as the installation of audio video wiring and related infrastructure and hardware, installation of audio video equipment including home theatre systems and networks, providing on-site customer support, and troubleshooting audio video related issues. We're looking for someone with 3 to 5 years of related experience, and we're committed to supporting your professional development.

We offer a competitive hourly rate (based on related work experience), extended health and dental benefits, RRSP contribution, company vehicle, continuous training and development, uniforms, safety equipment/tools, on-call/overtime pay and the opportunity to work with a great group of people!

If you're interested in this exciting opportunity, we'd love to hear from you. Simply send an email to hr@huroniaalarms.com or contact our Human Resources department at 705-445-4444 ext. 1113. We look forward to receiving your application!

We offer an incentive for leads that create viable employment opportunities for our company: three months of free monitoring for the lead, 12 months of free monitoring if we employ the lead through their probationary period, and an additional 24 months of free monitoring should the lead remain employed after one year of continuous service.
